### CAREER OBJECTIVE

- A highly motivated and hardworking individual looking for a responsible role in a reputable organization.

### SKILLS

Project Management

Problem Solving

Html, Css, Js, React Js

Leadership

## WORK EXPERIENCE

- I don't have any formal work experience but I got hands-on experience building projects at Masai School.
- "I worked on interesting projects like the clones of Travelix and Google Garage . I got to use HTML, CSS, and JavaScript extensively during these projects."

## PROJECT

Jan 17 - Jan 23, 2022

- My project is a clone of the travelix website. It is a tourism website which provides details for planning one's holiday and travel to the best tourist places across the globe. We executed this project in 6 days. My team had 3 members.
  - I led the team, created about-us, section parts and managed the whole code on GitHub.
  - I used HTML, CSS, javascript, Zoom and GitHub.
  - At the end of that project, I learned to manage the whole code on GitHub , collaborate in a team and communicate with team members because it was the first time we worked remotely.
